SUBSTITUTE SPECIFICATION FOR APPLICATION

NVENTOR: Karel van den Berg

TITLE: A Feed Metering Device

RELATED APPLICATION:

This Application is a division of Application Serial No. 09/828,911, filed April 10, 2001,

which issued as U.S. Patent No. 6,651,584, November 25, 2003.

FIELD OF THE INVENTION:

The present invention relates to a feed metering device for distributing fodder or drink, or

both, in metered portions to an animal. Such a feed unit may include a manger or feeding trough

or both, or a unit provided with a nipple such as may be provided for calves.

BACKGROUND OF THE INVENTION:

Such a feed metering device is known from European Patent Application EP-A0610171,

of Vogl, published August 10, 1995. By means of a control unit the closing means of this known

feed metering device is actively retained in the position in which it closes the manger or feeding

trough.

SUMMARY OF THE INVENTION:

It is one of the objectives of the present invention to provide an alternative feed metering

device for distributing fodder or drink, or both, in metered portions to an animal, which device,

on the one hand, deters in a constructively simple efficient and inexpensive manner animals that
